

## Canesten Thrush External Cream

### Uses

Treatment of candidal vulvitis. It should be used as an adjunct to treatment of candidal vaginitis. Can also be used for treatment of sexual partner's penis to prevent re-infection.

### Dosage

16-60 years: apply thinly 2 or 3 times daily and rub in gently. Treatment should be continued for up to 1 week after treating the internal infection in women and for 2 weeks in men. However, if after concomitant treatment of the vaginitis, the symptoms do not improve within seven days, the patient should consult a physician. Under 16 and over 60 years: not recommended except on medical advice.

### Format and Ingredients

Cream containing:  
Clotrimazole 2% w/w,
