Uses

A traditional herbal medicinal product used for the relief of teething pain and symptoms associated with teething, such as sore and tender gums, flushed cheeks and dribbling based on traditional use only.

Format and Ingredients

White powder containing:

Tincture of matricaria 0.002ml,

Dosage

Infants over 6 months: 1 sachet, dry on the tongue night and morning. 3-6 months: half a sachet in the morning and the other half in the evening. If the child is restless the dose may be repeated every 1, 2 or 3 hours if necessary until improvement occurs. No more than 6 doses in 24 hours. Under 3 months: not recommended.
