Uses

Treatment of symptoms resulting from the reflux of acid, bile and pepsin into the oesophagus such as acid regurgitation, heartburn, indigestion (occurring due to the reflux of stomach contents), for instance, after gastric surgery, as a result of hiatus hernia, during pregnancy, accompanying reflux oesophagitis, including symptoms of laryngopharyngeal reflux such as hoarseness and other voice disorders, sore throats and cough. It can also be used to treat the symptoms of gastro-oesophageal reflux during concomitant treatment with or following withdrawal of acid suppressing therapy.

Format and Ingredients

Chewable tablet containing:

Sodium Alginate 500mg, Potassium Bicarbonate 100mg,

Dosage

Over 12 years: 1-2 tablets after meals and at bedtime. Under 12 years: only on medical advice. If symptoms persist after 7 days a doctor should be consulted.
