

Canesten Thrush Combi Pessary & External Cream

Uses

Complete treatment for vaginal thrush to treat both the internal cause and external symptoms.

Dosage

16-60 years: 1 pessary inserted into the vagina, preferably at night. The external cream to be applied thinly 2 or 3 times daily to the affected area. Refer the patient to a doctor if under 16 or over 60. This product should only be used if thrush has been previously diagnosed by a doctor. Do not use to treat nail or scalp infections.
