

Otovent Adult

Uses

Drug-free treatment for Eustachian tube dysfunction.

Dosage

Users inflate the balloon using their nostril while holding the other nostril closed. Use with each nostril up to 3 times a day. Blowing the balloon up creates enough pressure to open the Eustachian tube, making it easier for fluid to drain from the middle ear. Use up to 3 times daily until all fluid has drained away.

Format and Ingredients

Nose piece
