Uses

For the eradication of head lice and their eggs.

Format and Ingredients

Liquid containing:
Dimethicone 4%,

Dosage

Adults and children over 6 months: apply gel evenly over dry hair, ensuring the scalp and hair are fully covered and the hair is saturated. Work into the hair with the fingers or an ordinary comb spreading the gel evenly from the roots to the tips. Leave on the hair for at least 1 hour. Wash hair thoroughly with a non-conditioning shampoo, applying directly to the hair without wetting it. Rinse with water, repeat shampooing as necessary and dry. Reapply the gel after seven days.
