Uses

For the prophylaxis and treatment of allergic rhinitis including hayfever and that caused by other airborne allergens such as house dust mite and animal dander. Symptomatic relief of sneezing, itchy and runny nose, itchy and watery eyes, nasal congestion and associated sinus discomfort.

Format and Ingredients

Nasal spray containing:

Fluticasone Propionate 0.05%,

Dosage

18 years and over: 2 sprays into each nostril once a day, preferably in the morning. In some cases 2 sprays into each nostril twice daily may be required. Once symptoms are under control a maintenance dose of one spray per nostril once a day may be used. If symptoms recur the dosage may be increased accordingly. The minimum dose at which effective control of symptoms is maintained should be used. The maximum daily dose should not exceed four sprays into each nostril. Under 18 years: not to be used.
