Uses

Gently softens and helps to remove hardened ear wax.

Format and Ingredients

Spray containing:

Medical Grade Olive Oil,

Dosage

Adults, elderly and children: hold the bottle in an upright position with the nozzle placed at the entrance to the ear canal and spray once. Leave for a few minutes then use a tissue to wipe away any surplus product that runs from the ear. Repeat once or twice daily for up to 14 days. Children under 5 years: a doctor should be consulted before use to confirm the presence of ear wax build up.
