

Pharmaton Vitality Capsules

Uses

Clinically proven to recover energy levels. Indicated for the relief of short periods of exhaustion (for example caused by stress), tiredness, feeling of weakness, or lack of vitality. This is a daily condition associated with a busy, hectic lifestyle. Enhances mental and physical capacity.

Dosage

Adults: 1 capsule each day taken with or after food. Recommended for 4 weeks and in periods of up to 12 weeks. If symptoms show no improvement, a doctor should be consulted. Children: not to be given.
