

Dermacare Psoriasis Treatment Cream

Uses

For the treatment and prevention of mild to moderate psoriasis symptoms. Helps to reduce scaling, itching, redness, roughness and hardening of the skin. Suitable for adults and children from 1 month. Suitable for sensitive skin and long-term treatment. Free from fragrances, colours and preservatives.

Dosage

Apply cream three times daily or as often as needed. Gently massage cream onto affected areas of the skin. Do not use on infected skin. Discontinue use if allergic reaction occurs.
