

Gaviscon Double Action Mixed Berries Tablets

Uses

Treatment of symptoms resulting from the reflux of acid, bile and pepsin into the oesophagus such as acid regurgitation, heartburn and indigestion, for example following meals or during pregnancy, and for symptoms of excess stomach acid (hyperacidity). Can also be used to treat the symptoms of gastro-oesophageal reflux during concomitant treatment with or following withdrawal of acid suppressing therapy.

Dosage

Over 12 years: 2-4 tablets after meals and at bedtime up to 4 times a day. Chew thoroughly before swallowing. Under 12 years: only on medical advice. Also available in mint.
