

# Calgel Teething Gel

## Uses

For relief of pain and discomfort associated with teething in children from 5 months of age, where non-pharmacological treatments have failed to provide sufficient relief. It also has mild antiseptic properties.

## Dosage

Babies from 5 months: spread a pea-sized amount of gel gently onto the sore area of gum with a clean fingertip. The dose may be repeated if necessary after 3 hours, up to a maximum of 6 doses in 24 hours. For short-term use of no more than 7 days.

## Format and Ingredients

Sugar-free teething gel containing:  
Lidocaine Hydrochloride 0.33% w/w, Cetylpyridinium Chloride 0.1% w/w,
