

# Mycota Cream

## Uses

For the treatment and prevention of athlete’s foot.

## Dosage

Adults, elderly and children: For treatment: wash and dry affected area and apply night and morning, particularly between the toes, then dust with Mycota Powder. Each day wear clean socks or stockings dusted inside with Mycota Powder. Continue treatment for 1 week after all evidence of infection has cleared. For prevention: use daily and dust socks or stockings inside with Mycota Powder.
