

Imodium Instants

Uses

For the symptomatic treatment of acute diarrhoea and acute episodes of diarrhoea associated with irritable bowel syndrome (IBS) diagnosed by a doctor. The tablets dissolve on the tongue with no need for water.

Dosage

Acute diarrhoea: 12 years and over: 2 tablets initially followed by 1 tablet after each loose stool. Maximum daily dose: 6 tablets. Under 12 years: not to be given. Acute episodes of diarrhoea associated with IBS: 18 years and over: 2 tablets initially, followed by 1 tablet after every loose stool, or as previously advised by a doctor. Maximum daily dose: 6 tablets. Under 18 years: not to be given. If symptoms do not improve within 2 days, usage should be stopped and a doctor consulted.
