

Vertigon 25mg Tablets

Uses

Vertigo due to Meniere's syndrome, labyrinthitis and other causes.

Dosage

Adults and the elderly: one tablet at night is often sufficient but 2 or 3 tablets are sometimes necessary. Alternatively, more frequent administration such as 25mg 2 or 3 times a day may be required for some patients. It is often not necessary to give more than 4 tablets in 24 hours. Children over 10 years: one tablet. Children 5-10 years: half a tablet. Children 2-5 years: an oral liquid preparation is recommended. Under 2 years: not recommended.
